BE A CYBERSMART HOLIDAY SHOPPER

Being a safe and secure shopper starts with STOP. THINK. CONNECT.:
Take security precautions, think about the consequences of your actions online and enjoy the conveniences of technology with peace of mind.

CONDUCT RESEARCH
When using a new website for purchases, read reviews and see if other consumers have had positive experiences.

GET TWO STEPS AHEAD
Turn on two-step authentication on key accounts like banking and email.

WHEN IN DOUBT, THROW IT OUT
Links in emails, posts and texts are often how cybercriminals try to steal information or infect devices.

GET SAVVY ABOUT WI-FI HOTSPOTS
Limit the type of activity you conduct on public wireless networks when shopping on the go.

PROTECT YOUR $$
When shopping, check to make sure the site is security enabled. Look for URLs with https:// to help secure your information.

WHEN SHOPPING THIS HOLIDAY SEASON, REMEMBER:
PERSONAL INFORMATION IS LIKE MONEY. VALUE IT. PROTECT IT.

Made possible in whole by a grant from the Digital Trust Foundation.
